

## RETRACTORS

Built to last and particularly suited for use in industrial and commercial sectors, our range of Retractors are perfect for securing tools, radios or phones. They're also ideal for people working at height and in situations where the loss of an item could have an effect on production downtime, or increase the risk of an injury on site.

Designed and manufactured in the USA, Retractors are constructed with high strength polycarbonate bodies and are available with four retraction forces. Specifically designed for heavy duty use in harsh weather conditions and water resistant environments.

## RETRACTOR WITH SAFETY KNIFE

- Ideal for warehouse and distribution applications
- Keeps your knife within easy reach
- Knife can be used at arms length and returns smoothly after use
- Features 90cm of high strength Polyester cord
- No tool required for blade change
- Ergonomic comfort handle
- Tape splitter to cut packaging tape without exposing a blade
- Blunt safety tip blade prevents puncture wounds/damaged merchandise
- Spring back blade; extra blades can be contained within knife
- Tested to 1 Million pulls
