## CONVEX SAFETY MIRRORS

Our convex safety mirrors offer added safety and security by improving surveillance and eliminating blindspots. With their expert design they can be used in a diverse range of environments and situations to ensure protection.

HEMISPHERE CONVEX EXTERIOR HALF FACE MIRROR 600MM

The Securikey Hemisphere Convex Exterior Half Face Mirror is the latest addition to our comprehensive range of safety and security mirrors. Manufactured form impact resistant 2 mm acrylic, the pure reflective coating of the mirror face encompasses a viewing area of $180^{\circ}$ and provides the ideal solution for enhancing visibility and the prevention of
 accidents. Sized at 600 mm and offering viewing distances of up to 9 m , these mirrors incorporate a vinyl celuka back and lid, which is sealed to offer maximum protection from harsh weather conditions. Supplied with a wall mounting bracket provided, the mirror can be pole mounted with the optional fixing kit.

- Widely used in hospitals, medical centres, schools, offices and factories
- Eliminate blind spots and are essential for the prevention of accidents and injuries
- 2 mm impact resistant acrylic, with computer designed curvature
- The lightweight back and cap are sealed for weather resistance
- Vacuum metallised coating - Gives the brightest sharpest reflection
- Galvanised heavy duty 'J-arm' bracket for wall mounting Allows adjustment to all angles
- Ideal for forklift loading areas, warehouses, factories and industrial buildings
- Can also be used to observe outdoor play areas around schools or childcare centres
- Optional pole mounting kit available
