

# Fire Stor

(£2,000 cash rating)\*

Our range of secure fire and burglary resistant storage cabinets are an affordable solution for the safekeeping of both valuables and documents. The cabinets are double-walled with a fire resistant barrier material to DIN 4102. The inclusion of this second level of protection gives these cabinets their fire resistance. In addition, they have undergone a burglary test and are therefore well suited to the storage of valuables up to the value of £20,000.

- Tested and certified to EN14450 – S1.
- Double-walled construction with fire resistant filling to DIN 4102.
- Each model is fitted as standard with five heavy-duty locking bolts secured on three sides and a VdS approved safe lock.
- Additional options include an internal lockable compartment (180mm high on single door version, 300mm high on the double door version), pull-out frames for hanging files and additional shelves.

Multiple locking options (see page 45)
