

## CONVEX SECURITY MIRRORS

### Institutional and anti-vandal mirrors

Securikey is a leading UK physical security supplier and has achieved 'Police Preferred Specification' status for nine models within its convex safety mirror range, demonstrating that the company has met the high standards set by Secured by Design.

Securikey has worked with Bennett Mirror Technologies, a leading mirror specialist with over 60 years of mirroring expertise, to develop a range of Convex Mirrors including Institutional Polycarbonate and Stainless Steel mirrors as well as Anti-Vandalism safety mirrors.

All convex security mirrors meet the exacting standards of both Police and Secure Facility requirements. The mirrors have also been developed in conjunction with prison architects and rigorously tested to meet stringent UK Home Office, London Metropolitan Police and Prison Service regulations.

### Secured by Design

### Official Police Security Initiative

#### FLAT VANITY MIRRORS

These mirrors are shatterproof and water resistant

- Available in 3 sizes
- One piece vinyl frame
- 1mm shatterproof stainless steel frame
- The mirror face is totally encapsulated for added security
- 7mm diameter fixing holes
- Supplied with Torx® security screws
- Also available in polycarbonate

## CONVEX SECURITY MIRRORS

### Institutional and anti-vandal mirrors

Corrections facility mirrors have been specifically designed for use in prisons and secure units where security and safety to both guard and prisoner or patient are critical.

The virtually indestructible polycarbonate or stainless steel mirror face combined with a unique anti-ligature full steel frame give a clear distortion free reflection, while the anti-ligature fixings are tamperproof and meet the tough requirements of prisons and institutions worldwide.

#### POLYCARBONATE CONVEX MIRRORS

Our range of institution polycarbonate mirrors are designed for applications where flame resistance is a priority such as factories, kitchens and institutions. Its strong powder-coated tamper proof steel frame ensures that the mirrors are securely fastened to the tabbed steel fixing frame to prevent injury.

- Widely used in hospital psychiatric wards, prisons and police stations
- Prevents surprise attacks or collisions
- Ensures staff, patient and inmate safety
- 3mm shatterproof Polycarbonate face withstands blows
- High heat resistance (240-degrees)
- Rigid steel mounting ring bolts to ceiling prevents removal
- High density foam insert available for increased strength
- Vacuum metalised coating gives the brightest and sharpest reflection

#### STAINLESS STEEL CONVEX MIRRORS

Our institution stainless steel mirrors are manufactured from highly polished mirror-quality stainless steel making it unbreakable, unaffected by heat and easier to maintain.

The half and quarter face are supplied with anti-ligature frames.

- The anti-ligature ceiling dome is manufactured from highly polished stainless steel
- Ideal for situations that require wide area surveillance
  - Unbreakable, unaffected by heat and easier to clean
    - Prevents surprise attacks or collisions
    - Improves staff, patient and inmate safety
- Developed to meet the stringent requirements of the UK Home Office, London Metropolitan Police and the Prison Service
