Fingerprint Setup

HOW TO SET PRIMARY USER FINGERPRINT

The primary user is the owner of the lock and can store up to 2 fingerprints.
1. Begin with the padlock locked.
2. Enter **PRESET CODE SHOWN ABOVE** by pressing the corresponding up, down, left, right directions on lock keypad. Do not pull on the shackle when entering code.
3. Open the padlock.
4. With padlock open, press and hold **UP** arrow until the blue LED light turns purple. Release **UP** arrow.
5. Place finger on sensor and hold - LED light will change from blue to green. Lift finger.
6. Repeat finger placement four more times.
7. When fingerprint is registered the LED will flash green three times.
8. Close padlock and test fingerprint. If red LED appears, fingerprint is not registered.
Repeat setup process for a second fingerprint for Primary User.

HOW TO SET ADDITIONAL USER FINGERPRINTS

1. Begin with the padlock locked.
2. Enter **PRESET CODE** or open padlock with **PRIMARY FINGERPRINT**.
3. Open the padlock.
4. With padlock open, press and hold **DOWN** arrow until the blue LED light turns purple. Release **DOWN** arrow.
5. Place finger on sensor and hold - LED light will change from blue to green. Lift finger.
6. Repeat finger placement four more times.
7. When fingerprint is registered the LED will flash green three times
8. Close padlock and test fingerprint. If red LED appears, fingerprint is not registered.
Repeat setup process with up to 8 total fingerprints.

Fingerprint Deletion

HOW TO REMOVE PRIMARY USER FINGERPRINTS

1. Begin with the padlock locked.
2. Enter **PRESET CODE** or open padlock with **PRIMARY FINGERPRINT**.
3. Open the padlock.
4. With padlock open, press and hold **UP** arrow until the blue LED light turns purple. Release **UP** arrow.
5. Press and hold **RIGHT** arrow until LED flashes green and red.
6. All primary fingerprints are now deleted.

HOW TO REMOVE ADDITIONAL USER FINGERPRINTS

1. Begin with the padlock locked.
2. Enter **PRESET CODE** or open padlock with **PRIMARY FINGERPRINT**.
3. Open the padlock.
4. With padlock open, press and hold **DOWN** arrow until the blue LED light turns purple. Release **DOWN** arrow.
5. Press and hold **RIGHT** arrow until LED flashes green and red.
6. **ALL** additional fingerprints are now deleted.
Changing Preset Combination Code

HOW TO CHANGE PRESET CODE

New combination can be set using 4 to 6 up, down, left, right directional positions.
1. Begin with the padlock locked.
2. Open padlock with **PRESET CODE** or **PRIMARY FINGERPRINT**.
3. With padlock open, press and hold **UP** arrow until the blue LED light turns purple. Release **UP** arrow.
4. Enter new combination using up, down, left, right directions on lock keypad.
   NOTE: There is a 5 second pause before LED light flashes green two times.
5. Re-enter combination. LED light will flash green three times.
6. New combination is now set. Preset code is now deleted.
7. Close padlock and test combination.

STORE YOUR COMBINATION CODE

1. Download the Master Lock Vault Home app to safely store your new combination.
2. Retrieve your padlock's unique Backup Master Code using your **ACTIVIATION CODE SHOWN ABOVE**.

Model 4901 Battery Instructions

HOW TO REPLACE BATTERY

1. Lock will light yellow to indicate a low battery.
2. Unlock & open the lock.
3. Remove bottom cover.
4. Use a coin to turn battery door slot 90 degrees counterclockwise (A). Open battery door & remove old battery.
5. Install a new CR2 battery with positive (+) side facing right.
6. Close battery door, turn slot back 90 degrees clockwise & replace bottom cover.

HOW TO UNLOCK WITH EXTERNAL BATTERY

1. If the battery dies in locked position, remove bottom cover.
2. Hold a 9V battery to jump contacts on bottom of lock.
3. While holding the battery in place, unlock padlock using Primary Fingerprint or Primary Code.
4. When unlocked, open battery door & install a new CR2 battery.
