FOR SAFETY

Followings are the safety instructions & rules. Prior to using the safe, please read the instructions carefully.

⚠ Cautions when placing the safe.

🚫 The Safe is heavy and must be handled with extreme care.
 ■ Do not move the safe when the safe is open.
 ■ Be cautious not to be bumped against corners of safe.

🚫 Position the safe door to the front and don't lay or turn safe upside down.

① To avoid dampness, place the safe in a well ventilated and flat floor.

⚠ Cautions when using the safe.

🚫 Keep the Override Key outside of the safe.

🚫 Be careful not to close the door roughly.

🚫 As the safe is heavy and operated with a smart digital lock, we advise children not to touch it.

🚫 Please be cautious of your hands and fingers when closing the door to avoid injuries.

🚫 In case of dampness inside the safe, articles may become moldy. Please store your safe box in a cool, dry place.

① Be careful not to forget the user code, and keep the instruction outside of the safe.

---
