KEY CONTROL SYSTEMS

Effective key management and secure storage is an essential part of any organisation's security strategy. Whether you need a simple key cabinet, a mechanised key control system or a bespoke key control solution, our range of high quality key storage cabinets help to maintain total accountability of large quantities of keys and help prevent unauthorised access within domestic, commercial and industrial environments.

High Security Key Filing Systems

The ultimate in Key Control

Our range of high security key control systems, the most comprehensive available, are manufactured utilising the same technology as our cash safes and tested to approved industry standards. This makes them ideal for safeguarding against lost or stolen keys even within high security commercial applications, such as the UK's prestige motor dealers, police stations and banks.

Euro Graded safe with bespoke key rails

HIGH SECURITY:

- Body constructed from 3mm steel.
- 6mm slab door.
- Three-way locking mechanism with 20mm diameter bolts.
- Features include adjustable hook bars, clever key tags and index control.
- Deeper models are available for the storage of bunches of keys.

BESPOKE KEY SECURITY:

- These units combine the security of a graded safe with telescopic key panels and additional storage. Securikey are able to design and manufacture to suit specific requirements.

FLOOR STANDING SYSTEMS:

- Based upon the Fire Stor (page 25) our Floor Standing systems are larger capacity key cabinets. Their key panels are on telescopic slides for easy access and storage.
- These units are AiS and SBD approved.

Multiple locking options (see page 45)

High Security Systems

Model	External Dimensions (mm)			Weight (kg)	Holds up to
	Height	Width	Depth		
High Security 100	636	460	120	35	100 keys

Key Vault 50 Padlocks	550	380	140	14	50 padlocks
Key Vault 100 Padlocks	550	730	140	30	100 padlocks

System Cabinets

Affordable key control

These cabinets are best suited to domestic and commercial use for key control and tracking. Constructed from pressed and folded steel and secured with a choice of multiple locking options, the cabinets provide the space to store and track up to 600 keys and include adjustable hook bars to accommodate different key lengths. Each model has a removable control index for out-of-hours peace of mind and colour-coded hook bars and tags to ensure quick identification, both of which are numbered. For larger requirements, our range of deep system cabinets provide the extra space required to accommodate bunches or a mixture of bunches and individual keys.

- Includes security loops to secure keys that require clear evidence of tampering or removal.

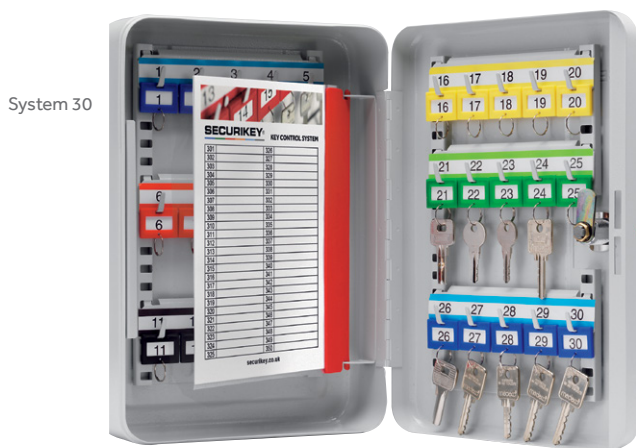

Multiple locking options (see page 45)
