WELCOME

A leading provider of physical security products for over 50 years

Securikey is a trusted partner of many UK companies and institutions, supplying a comprehensive range of innovative security and safety products which meet the requirements of even the most demanding of environments.

By combining our technical expertise and deep understanding of security with an ongoing focus on customer experience and product development, we deliver peace of mind and reliable protection to individuals, buildings and businesses of all sizes; from small shops to large retail stores, workshops to factories and from local authorities to central government agencies, financial institutions, NHS Trusts, schools, colleges and universities.

Securikey.co.uk

The Securikey website features a design focused on user friendly navigation, allowing easy product selection, whilst providing in-depth technical support in both video and printable media. For more detailed information about the company and our products, including **downloadable catalogues, price lists, cash certificates, installation guides** and details of your nearest Securikey stockist, please visit **securikey.co.uk**. The website is just one method for potential customers to research our products. We welcome you to talk to us directly if the topic is of a more secure or sensitive nature, so please call Securikey on 01252 311888.

Support:

The support section of our website contains over 80 videos showcasing many of our products providing a unique video presentation of operation and programming of our more complex products. These are hosted on YouTube as well as the Securikey website.

Where to buy:

Securikey products can be purchased from our network of distributors and are available from both the high street (for those customers who like to 'try before they buy') and via selected website retailers. For more details please visit **securikey.co.uk**.

Installation:

Our specialist network of installers is able to deliver and fix any of our safes/ cabinets within the UK mainland. The majority of these installations can be carried out by the completion of a simple risk assessment form downloadable from our website **securikey.co.uk**. More complex situations may require a site survey.

Domestic, Commercial
and Industrial Environments

"Tested and certified control
for up to 2160 keys"

High Security 100

KEY CONTROL SYSTEMS

Effective key management and secure storage is an essential part of any organisation's security strategy. Whether you need a simple key cabinet, a mechanised key control system or a bespoke key control solution, our range of high quality key storage cabinets help to maintain total accountability of large quantities of keys and help prevent unauthorised access within domestic, commercial and industrial environments.

High Security Key Filing Systems

The ultimate in Key Control

Our range of high security key control systems, the most comprehensive available, are manufactured utilising the same technology as our cash safes and tested to approved industry standards. This makes them ideal for safeguarding against lost or stolen keys even within high security commercial applications, such as the UK's prestige motor dealers, police stations and banks.

Euro Graded safe with bespoke key rails

HIGH SECURITY:

- Body constructed from 3mm steel.
- 6mm slab door.
- Three-way locking mechanism with 20mm diameter bolts.
- Features include adjustable hook bars, clever key tags and index control.
- Deeper models are available for the storage of bunches of keys.

BESPOKE KEY SECURITY:

- These units combine the security of a graded safe with telescopic key panels and additional storage. Securikey are able to design and manufacture to suit specific requirements.

FLOOR STANDING SYSTEMS:

- Based upon the Fire Stor (page 25) our Floor Standing systems are larger capacity key cabinets. Their key panels are on telescopic slides for easy access and storage.
- These units are AiS and SBD approved.

Multiple locking options (see page 45)

System Cabinets

Affordable key control

These cabinets are best suited to domestic and commercial use for key control and tracking. Constructed from pressed and folded steel and secured with a choice of multiple locking options, the cabinets provide the space to store and track up to 600 keys and include adjustable hook bars to accommodate different key lengths. Each model has a removable control index for out-of-hours peace of mind and colour-coded hook bars and tags to ensure quick identification, both of which are numbered. For larger requirements, our range of deep system cabinets provide the extra space required to accommodate bunches or a mixture of bunches and individual keys.

- Includes security loops to secure keys that require clear evidence of tampering or removal.

“Bringing piece of mind to
any environment”

Mini Vault 3

CASH SAFES & VAULTS

Our range of free-standing safes offers the most comprehensive choice whilst maintaining clear areas of speciality. Each safe is assigned a cash rating based on its resistance to attack, helping you select the model that best suits your security needs. Our Euro Graded safes offer maximum protection with full VdS Test House approval and provide a robust solution for storing money and valuables in both domestic and commercial environments.

Micro Vault

(£1,000 cash rating)*

A compact and affordable option, the Micro Vault provides a cash rating of up to £1,000 and a valuables cover of up to £10,000. This rule (x10) can be applied to the safes in all of the Securikey ranges.

Perfect for domestic environments like home offices where cost and size are paramount, the Micro Vault is available in a discreet grey powder-coated paint finish with red interior carpeted base as standard.

The Micro Vault 2 with a removable shelf can accommodate A4 documents. This larger size is fitted with a choice of electronic lock or Euro Profile cylinder for those customers who wish to integrate their safe and house keys.

ELECTRONIC MODEL:

- With LED display.
- Locking is via an anti-bump solenoid lock with soft touch keypad.
- An override key and master code ensures emergency entry at all times.
- 4 x AA Batteries supplied.

KEY LOCK MODEL:

- Supplied with Euro Profile 5 pin cylinder, 40mm in length, along with 2 keys.

Body thickness of 2mm and 5mm steel door with 20mm steel locking bolts.

Available in 3 sizes.

Euro Vault

(£1,500 cash rating)*

Utilizing the same build quality as our Mini Vault range these safes will take a laptop, cash drawer, box file or valuables. They are available with either a motorised electronic lock with keypad and integrated light for the convenience of keyless entry or Euro Profile Cylinder for those customers who wish to integrate their safe with house or business security arrangements. Perfect for any situation where cost and flexibility are paramount. Optional hotel mode is perfect for commercial rental when included in hotel rooms or serviced apartments.

£1,500

Euro Vault

Euro Vault Biometric Keypad

Euro Vault Range

KEY LOCK MODEL:

- Manufactured with a 2mm body and 4mm anti-bludgeon flush fit door, with 20mm hardened steel locking bolts.
- Supplied with Euro Profile half cylinder. 40mm length.

ELECTRONIC MODEL:

- Locking is via a motorised lock with keypad.
- An override key and master code ensures emergency entry at all times.

GAS STRUT ELECTRONIC:

- Designed to allow installation in areas with limited access, this unit has a larger door and integrated light.
- Hinged door with twin gas strut assistance.
- Locking is via a motorised lock with keypad.

DRAWER SAFE:

- Available in 2 sizes that are perfect for fitted furniture.
- Motorised electronic locking.
- Integrated light.

BIOMETRIC SAFE:

- Locking via Pin or Fingerprint & combination of both.
- 20 fingerprints recorded.
- Mechanical key override.
- Two adjustable shelves and interior light.
- 4mm Anti-bludgeon door and 2mm body.

Mini Vault Silver S2

(£4,000 cash rating)*

The Mini Vault Silver is ideal for the safekeeping of cash and valuables. Whilst the manufacturing techniques used provide a robust unit for domestic and commercial applications, its internal fittings are those you would expect to protect delicate valuables such as watches, jewellery and electronic tablets. This protection is achieved by utilising an anti-bludgeon laser cut door (to prevent prying and chisel attack) mounted on concealed hinges and hardened steel plates to protect all vulnerable areas. Both key and electronic lock are tested and certified to EN14450-S2.

- Manufactured with a 4mm body and 8mm anti-bludgeon flush fit door, with 25mm hardened steel locking bolts.
- Available in 4 sizes, plus 2 deposit options.
- A choice of key or electronic locking mechanisms, the electronic option offers changeable codes, low power warning and LED indicators.
- All models have felt-lined walls, thick foam base pad, jewellery shelf* and battery operated motion sensitive light.
- Mini Vault 3 has been designed to accommodate a cash till or jewellery drawer with a width of 410mm.

Deposit options available (see page 22)

Mini Vault Gold FR S2

(£4,000 cash rating)*

The Mini Vault Gold FR is ideal for the safekeeping of documents, valuables and cash. Whilst the manufacturing techniques used are intrinsically the same as Mini Vault Silver the FR model benefits from a double-walled construction, with a fire-resistant barrier material to DIN 4102. The inclusion of this second level of protection gives the FR model light fire protection. All models are tested and certified to EN14450-S2.

Mini Vault 3 FR

- Combined body thickness of 6mm, an 8mm anti-bludgeon door with 25mm hardened steel locking bolts.
- Available in 4 sizes.
- Choice of key or electronic locking mechanisms. The electronic options offer changeable codes, multiple users, low power warning and LED indicators.
- All models include jewellery shelf* and battery operated motion sensitive light, fixing bolts, batteries and operating instructions.

Euro Grade 2

(£17,500 cash rating)*

As with all our Euro Graded safes this model is constructed from solid steel with a composite slab door. The smallest model with a 39 litre capacity is one of the most compact Grade 2 safes on the market today. With a range extending to a capacity of 847 litres there is a model to suit virtually any application.

2040N

- Tested and certified according to EN 1143-1 Security Grade 2.
- Fitted with solid steel sliding bolts on three sides, continuous hinge protection and a single security key lock.
- Multiple locking options available.
- Fire resistant door seal and base fixing point with rear fixing option included as standard. Tested to BS476-20/EN1363-1.
- Optional fittings include adjustable shelving, a lockable compartment, metal door pocket and a rotary or tube deposit facility.
- Dual locking available on models 2070N to 2845N.
- Bespoke RAL colours available.

Protector, Underfloor & DIY Safes

(Up to £10,000 cash rating)*

Underfloor safes are designed for installation in a concrete floor. The level of protection provided due to the nature of the installation and location possibilities is huge. Our range of DIY safes is deemed suitable for installation with little or no specialist knowledge. Advice on the installation of this product will be provided at point of purchase.

DIY RANGE:

- Secure storage for A4 papers, passports, insurance certificates or jewellery.
- Models can be installed in a timber joist floor or can be surface mounted.

PROTECTOR RANGE:

- Available in five models with a choice of interchangeable doors covering 3 cash ratings.
- High level of security with interlocking bolts controlled by a key or keyless combination and anti-drill features.
- ABP models protect against thermal attack.

Deposit Safes

In many commercial settings, a deposit safe is essential; a secure place to discreetly deposit cash or valuables without needing a key or code to open the safe, while keeping its presence low profile. Securikey offers a wide range of quality deposit safes, with a variety of cash ratings and deposit methods, which offer total flexibility in the workplace.

"Securing your documents from all forms of attack including fire and flood"

FPW082FTCML

FIRE SAFES & CABINETS

In the aftermath of a fire, access to important documents such as insurance policies, wills, passports and certificates is essential to getting back on your feet. Securikey's range of modern, high security, fire-resistant safes and vaults are manufactured to the exacting standards and independently tested and approved for a combination of fire protection, flood and physical attack.

Fire Stor

(£2,000 cash rating)*

Our range of secure fire and burglary resistant storage cabinets are an affordable solution for the safekeeping of both valuables and documents. The cabinets are double-walled with a fire resistant barrier material to DIN 4102. The inclusion of this second level of protection gives these cabinets their fire resistance. In addition, they have undergone a burglary test and are therefore well suited to the storage of valuables up to the value of £20,000.

- Tested and certified to EN14450 – S1.
- Double-walled construction with fire resistant filling to DIN 4102.
- Each model is fitted as standard with five heavy-duty locking bolts secured on three sides and a VdS approved safe lock.
- Additional options include an internal lockable compartment (180mm high on single door version, 300mm high on the double door version), pull-out frames for hanging files and additional shelves.

"Protecting your wealth
and health in a variety
of environments"

Medicine Cabinet 200D

SECURITY CABINETS & BOXES

The secure storage of both drugs and firearms is very strictly controlled. Where as cash and valuables risk is covered by an insurer, an inadequate provision made by a company or individual for keeping dangerous drugs and armaments can result in personal prosecution and subsequent incarceration. This range of products will ensure you comply to the relevant standard.

Medical and Pharmaceutical Storage

Our range of Medical Storage Cabinets are designed using our extensive knowledge of the protection and control of cash and valuables. The 'Bronze Level' Medical Cabinet is suitable for storing general First Aid items, whilst the 'Gold' and 'Silver' units are perfect for drugs that are governed by the Home Office Drugs Inspectorate.

Medical Cabinet 3

Medicine Cabinet 200D internal

- Bronze level cabinet features: 1.5mm pressed steel construction with security cam lock, shelves and lockable inner compartment.
- Silver level cabinets feature: 2mm body with 5mm door fitted with digital lock.
- Gold level cabinet to EN14550 (page 30).

Gold and Silver cabinets conform to the construction required for the misuse of drugs (safe custody) regulation 1973.

Secure Stor

(£2,000 cash rating)*

Secure Stor offers an economic solution to the ever increasing problem of safe storage of high value bulk items, including the safekeeping of medical and pharmaceutical supplies.

Whilst built to the same exacting standards as the Euro Grade range, these units are tested to EN14450-S1 and certified by VdS in Germany. Manufactured with a 3mm solid steel body, with 3-way locking mechanism and VdS approved class 1 safe lock. The internal hinges allow the door to open 102°. Hardened steel plates protect all other areas prone to attack. Available in five sizes with alternative locking options, the cabinet is supplied with prepared base fixing points and shelves.

Gun & Ammunition Cabinets

These gun and rifle cabinets exceed the UK standard (BS 7558) for storing firearms and utilise 3-way 25mm locking bolts, secured by a single high security key lock to EN 1300. Concealed hinges and continuous hinge side protection offer superior resistance from attack.

- Multi point locking with 8-lever safe lock.
- Gun cabinets are supplied with a trigger lock to prevent unauthorised use of a firearm during transportation.
- Ammunition cabinet in two sizes is fitted with an electronic lock and key override.

Post Boxes

HIGH SECURITY POST BOXES:

Our sleek, weatherproof High Security Post Boxes are available in two sizes and have been designed for outdoor environments to protect letters and small packets from theft. As part of our One Key Solution range, High Security Post Boxes offers the potential for integration with existing 'single key' systems, simplifying security and offering increased flexibility.

- 1.5mm thick steel with Euro Profile locking.

STANDARD POST BOXES:

Utilising high grade steel, powder coating and high quality cam lock, these fabricated post boxes are built to the same exacting standards as our 'System' key cabinets. Available in two sizes with the option of front or top loading, both sizes will accept A4 comfortably. To avoid rattling in strong winds, noise dampening materials have been incorporated.

- Quality cam lock and powder-coated finish to give years of service.

CONVEX SECURITY MIRRORS

Strategically placed, our extensive range of convex security mirrors are used to improve security, safety and operational efficiency in a diverse range of environments, from factories to warehouses, on shop floors and in hospitals, police stations and prisons – eliminating blind spots and improving safety and surveillance where visibility is poor.

Viewing Distance: This is the combined distance from the observer to the mirror PLUS the distance from the mirror to the object being observed and should be used as a guide only.

Interior Convex Mirrors

By eliminating blind spots and hard-to-see areas convex mirrors allow staff or store security to constantly and inconspicuously monitor customers or visitors. They can help to prevent accidents in warehouses, garages or busy corridors and they reduce security risks. The whole range

of convex mirrors come complete with a fully adjustable bracket which is designed to give you the best optimal angle for viewing specific areas.

Interior Convex

Model	Description (mm)	Viewing Distance (M)	Acrylic Face Thickness (mm)	Back
M18020J	300 diameter	5	2	ACM
M18038J	450 diameter	7	2	ACM
M18056J	600 diameter	10	2	ACM
M18108J	900 diameter	18	2	Vinyl Celuka
M18330A	600 x 400 rectangular	13	2	-

Supplied with bright zinc "J" arm bracket. ACM = Aluminium Composite Material.

600 x 400 Rectangular

Interior Hemisphere Mirrors

For wide angle viewing the ceiling dome mirrors, wall dome mirrors and corner dome mirrors are all ideal in open areas above aisles and shelving. The deluxe half dome mirror is designed for busy corridors and passageway T-intersections to help avoid collisions. The lightweight vinyl back and lid fully enclose the cavity so that no dust, garbage or other objects can be left inside.

Interior Hemisphere 90° "Quarter Dome"

Institutional and Anti-Vandal Mirrors

Corrections facility mirrors have been specifically designed for use in prisons and secure units where security and safety to both guard and prisoner or patient are critical. The virtually indestructible polycarbonate or stainless steel mirror face and a unique anti ligature full steel frame give a clear distortion free reflection, while the anti-ligature hole designs are tamper proof and meet the tough requirements of many prisons and institutions worldwide. These design features ensure perfect application in any area where vandalism is an issue.

"Helping working people in
their working lives"

RETRACTORS & DOP

Five decades after our first Key Reel was produced, millions are in use worldwide in hundreds of different professions by people who require high-quality products they can depend on daily. From courier drivers to porters, security guards and construction workers, our key reels and retractors are a convenient and secure way to keep keys, tools and ID badges to hand at all times. Lightweight and durable, they can fasten to either belts or clothing and are available in a range of 'own-branded' models to suit individual company requirements.

Super 48®

Every detail of this heavy duty retractable key holder was built for rugged use and hard work. The extra durable polycarbonate case is impact resistant and the tough Kevlar® cord has been tested to over one million pulls - guaranteed to outlast any other retractable key holders on the market. The patented locking mechanism on the Super 48® key holder will ensure your keys, tools and other items stay right at your hip without dropping to the ground.

Super 48°

Strength	Fixing	Description	Code	Weight Carried	Approx. Keys Carried
Extra Heavy Duty	Spring Clip & Belt Loop	Retractor, Super 48°, 900mm Kevlar® Cord	RHDK-HD	Up to 370g	22

Heavy Duty	Leather Belt Loop	Retractor, Super 48°, 1200mm Kevlar® Cord	RHDK-LBL	Up to 230g	15

Original

The KEY-BAK® Original is a heavy duty key reel guaranteed to outlast the competition. Perfect for custodians, facilities and maintenance workers, hospitality and casino employees, mechanics and more. Choose from the stainless steel chain or the rugged Kevlar® cord. Additionally, select the back attachment that best suits you: a sturdy belt clip, secure belt loop, the removable rotating clip or the bracket for mounting purposes.

LOCKING OPTIONS

Securikey recognises that there may be a requirement to add or alter the standard locking configuration to increase functionality. We offer examples of the alternatives listed below for this reason.

LA GARD 702

1 Master, 1 Manager, 28 Users

Audit trail of last 500 events via additional software. Time Delay and Duel Mode.

LA GARD 702 DISPLAY

1 Master, 1 Manager, 28 Users

Audit trail of last 500 events. Last 50 events visible on OLED display. Time Delay and Duel Mode.

WITTKOPP PRIMOR LEVEL 15

1 Master, 8 User

VdS Class 2 lock with 2 user code and time delay facility.

WITTKOPP PRIMOR LEVEL 5

1 Master, 1 user Code

VdS Class 2 lock with 2 user code and time delay facility.

SAFE LOGIC DIRECT DRIVE

Single user code with master override facility and wrong code penalty.

TDL

1 manager and 1 user code

with Key override. Can be programmed to both home and hotel mode. Motorised Bolts.

BIO LOCK

10 Finger print capacity and digital USB override. Designed to replace a standard Securikey Cam lock it is rechargeable and easy to set up and use.

SAFE LOGIC SWIGBOLT

Single user code with master override facility and wrong code penalty.

PADLOCKING CAM LOCK

Designed to replace our standard Cam Lock, this option accepts a padlock with 8mm diameter shackle (Max).

CL1000

Entry level electronic lock with programmable 4-digit code, designed to replace our standard Cam Lock. May be fitted horizontally or vertical depending on product.

MECHANICAL PUSH BUTTON LOCK

A push button lock similar to those used extensively within offices in the UK. This lock type is available with a slam lock only.

3/4-WHEEL MECHANICAL COMBINATION

A combination lock used extensively in the safe industry. Offers in excess of 1 million combinations.

ACCREDITATIONS & TESTING

Master Locksmiths Association

We are affiliate members of the Master Locksmiths Association. This organisation inspects and tests both individual members and companies to ensure they are delivering a quality service to a agreed standard with employees that are security vetted.

Secured by Design

Third party approval of our certified products to an agreed police approved standard. Only products falling under this accreditation can be recommended by the police force and its agents. Working closely with BSI and Sold Secure etc. on items as diverse as door locks, safes, fencing to advising on designing out crime in new builds.

ISO 9001-2015

An international standard for quality management systems (QMS), designed to help organisations improve efficiency, meet customer needs and achieve consistent results.

AiS

The inclusion of the AiS approved logo re-enforces the importance of independent testing and the products approved status with a large amount of British Insurers. This safe list is a good guide to new and old cash ratings, however you are advised to check with your insurers before installation.

ESSA

We are members of ESSA, the European Security Systems Association, who provide clear and uniform test methods amongst individual countries test houses.

Recycling ISO 14001

Products supplied carrying this label are made from or with recyclable materials with special focus on our range of safes graded to European standards, no compromise is made on security just a little more care on the sourcing and sustainability of materials.

Sold Secure

Securikey uses 2 main test houses for our safe and vault product, The VdS in Germany and Sold Secure in the United Kingdom. Sold Secure is part of the MLA and tests items such as safes, gun cabinets, padlocks and door locks. Sold Secure test to recognise 3rd party standards be that BSI or EN. Rest assured if its certified at Sold Secure it is tested every year to ensure continuity of resistance to attack.

Burglary

Our range of safes and vaults are tested to 3 main British and European standards that have been adopted by the UK insurance industry, these standards cover cash rating from £2,000 to £1 million, this rating is x10 for valuables such as watches, jewellery or bonds. The range of tools used and time taken is strictly measured to ensure if the product carries approval under these standards then you can guarantee that they are up to and in most cases exceed this agreed resistance to attack. Each item will bear this badge with its tested standard and level achieved.

The testing undertaken at the UK Sold Secure test house is an annual procedure and as you can see from several of the images, multiple tool sets are pre-prescribed in the standard be that our safes, padlocks, key holding boxes or door cylinders.

Fire Protection Rating

The level of fire protection provided is indicated by the use of this icon, signifying the temperature and time duration achieved. This rating is established from both our own 'in-house' test and independent testing in Sweden, US and the UK. Testing standards include NT017/ BS476-20/EN1363-1 and UL.

Anti Vandal / Ligature

Our range of anti-vandal and anti-ligature mirrors are tested at the SKG laboratory to destruction to ensure that they are more than capable of withstanding the tough climate of prisons, mental care facilities and the urban environment.

Dropped Object Protection

ANSI/ISEA 121-2023 Certified 3rd party testing guarantees your ToolMate Tool Tether is designed, tested and proven to a 2:1 safety factor.

Security Standards

Where no clear industry standards exist, Securikey has developed its own rating system to aid product selection. We have applied 50 years experience within the security industry to these standards, and found them to be an excellent measure of strength and durability.

Products which provide the highest possible standard of security in each range.

Offering additional security and strength, over and above Bronze level.

Where a base level of protection or security is required.

Guarantee

Securikey branded products offer a 1 year guarantee in respect of materials and workmanship*. This can be increased to 3 years by registering online at **securikey.co.uk**. Master Lock® security branded products in most instances carry a lifetime guarantee.

*Guarantee applicable to the lock is limited to that offered by the lock's manufacturer.
